Video review of the game Dead Admin Developers from Gameloft have released an updated version of the popular free game called Dead Admin. In the new version, the developers have taken a learning-focused approach. The levels in the game have grown significantly, their depth has increased significantly. The developers have calculated that by updating the level, the player will have time to gather his thoughts and prepare for the next zombie attack. The developers managed to create the most realistic story for the game Grandfather Admin. The process of passing the game Grandfather Admin in at first glance is simple. First you start playing, and only then you have to think in order to survive in this world. You have the opportunity to create and maintain your squad, equip it and arm it. By choosing your friends, you become the leader of your clan. Having your friends allows you to fight zombies already as a leader. You can also control them using the terrain map. Unexpected plot twists will allow you to make the right choice. Moreover, thanks to a realistic form that will resemble old games with their battle scenes, Dead by Daylight will be interesting in its own way to both zombie fans and real life lovers.
