The game takes place in the year 2035, when coronavirus (Covid-19) is spreading around the world, forcing the closure of all movie theatres, causing cancellation of all film productions and causing a production halt for Hollywood. The protagonist is an American actor, Tim Hanks. Now in his 60's, Tim needs money, and is old enough to receive a disability benefit. He's worked in Hollywood for more than three decades and is a household name in America, but after meeting the new doctor assigned to his case, things start to look up. The story follows a few things: - The process of a new virus born in China being spread to the world. - The process of the U.S. government passing several bills to fight the virus. - Tim Hanks was affected by the virus while on location in China. - Tim Hanks receiving a disability pension. - The saga of the government's experimental Covid-19 vaccine, which can stop the coronavirus. Unfortunately for Tim, in a desperate attempt to make some quick cash, he agreed to play a video game for free promotion. But after the game fails to attract significant playtime, the government revokes the actor's disability pension, and the game is branded a failure. In order to save his industry, Tim must use his creative skills to turn this game into a hit. And if not, he will be forced to return to work as a truck driver. The game itself is a satire of the narrative structure of action and adventure video games. The Videogame In the year 2035 the coronavirus killed almost a quarter of the world's population. It was a disaster caused by the mishandling of a natural virus, but nobody was held accountable for the disaster. In the quest to save the world's economy, a new government program was set up to develop a vaccine against the virus, using the experimental vaccine created during the huge Covid-19 outbreak in China. It is the film industry's last hope to survive during this crisis. The new vaccine fails, the last 5% of the planet's population is destroyed by the virus and the world spirals into a food shortage crisis. A \$15,000 tax credit was set up to encourage film companies to make use of the government's experimental vaccine. One of the scientists responsible for creating the vaccine is exposed and goes missing, but another scientist, Dr. Evans, is assigned to study c9d1549cdd

(Sideways) Sideways New York is a New York City tour that allows for creative freedom and spontaneity. This crew of photographers work in different styles, and are able to use the flexibility the Sideways format provides, to "break rules, capture moments, and create an experience that is all their own." Sideways™ New York travelled to Buenos Aires for the first time this year, hitting the streets of Rosario, Santa Fe, Arroyito, San Cristobal, Mar del Plata, and Miami respectively to capture the vibrancy of Sideways™. It's an amazing way to experience the city and the culture of its streets. I've been a part of Sideways™ New York for two years now and each experience I take in is changing and evolving. Because of Sideways™, I've met a bunch of new people, and had a bunch of people who I would have never met. Sideway™ New York has exposed me to new and funky cultures, and lifestyle. I hope people get on board and check it out. I know I've met some people that I would have never before known the streets of New York to have. To meet people that shared your passion for street photography and really understood it. We're always coming up with new and exciting things and I hope people are checking it out. I'd love to see people in the comments, know a little more about what Sideways™ is about and what people think about it. Thanks for all who continue to support me in whatever I do. Download my Sideways™ NYC 2012 Photo Roundup and see the story of the tour! With the discovery of this new methodology, it could be said that SDNY has created a completely new avenue for photographers to explore creativity. This new branch of photography, though still young, has given me in a way an opportunity to escape the "repetitiveness" of

the traditional format. I took the invitation “LOOK! IT’S A FEATHER!” in a whole new meaning... because what could be more interesting than a city on a bite of a go-go bird?! I began learning what it means to be spontaneous, to “play and laugh a little more” ... wandering around, participating just for the lovely feeling of being free like this... it's like few picnics with friends enjoying good memories.
