(1999-2009) - Cd 1 full album zip. Joshua Bell Remix Ice A Seance. Flick Your Finger Someplace - Frozenway - Hotfile - Free. epub 1000s of books online free download. mccloud download for hotfile.Q: How to check if user is logged in using react-native-firebase? I would like to check if user is logged in or not. In case he is not logged in I would like to send him to login screen. If he is logged in I would like to display Main.js Component. What I've done so far: in my Login.js component I have a function loginSuccess() that takes user data and send it to my Main.js component. loginSuccess() { // Call the signin with email and password functions firebase.auth().signInWithEmailAndPassword(this.state.email, this.state.password).catch(error => { // Handle Errors here Alert.alert('An Error Has Occurred', error.message) this.setState({ error: true, }); }); firebase.auth().onAuthStateChanged(function(user) { if (user) { // user is signed in // props the main component after success console.log(user) this.props.navigation.navigate('Main'); } else { // user is not logged in Alert.alert('You have been logged out.');
