We have a 2011 Toni Greene First Edition of "Greenberg's Guide to Lionel Trains. Page three shows it has the 'phragraph' from Volume II. Volume II and the 3-volume set have matching "phragraph" covers. This was not available until last year. Outside of the matching covers. I no longer have a good copy of Volume 2. It was bound in red cloth with green highlights, and had a blue-green 'phragraph' cover. It was the cover that originally attracted my attention to the books. Having only purchased Volume 1, I didn't think it was a volume with an accompanying picture. I wanted to buy Volume II when it was originally released. By the time I had purchased Volume 1, I had access to the Greenburg's website, and could figure out that Volume 2 existed. I will pay top dollar for a good copy, and am interested in the current offer if the volume no longer exists. This was a first edition of course. When I found the much cheaper "no cover" - marooned book collection, I was concerned that I had been able to buy a copy of Volume 2 when it was originally released. Cameron Jennings's message in on the LionelPriceRarity site, that Volume 2 may have been reprinted because of copying error. Cameron also said it is possible that the original Volume 2 could have been released. But as noted by gizmodo, that was before the Greenburg's website came along, the information that is now easily available, back when it wasn't. P.S. Will the replacement cover match the original, or is it something else? We have a 2011 Toni Greene First Edition of "Greenberg's Guide to Lionel Trains. Page three shows it has the 'phragraph' from Volume II. Volume II and the 3-volume set have matching "phragraph" covers. This was not available until last year. Outside of the matching covers.
