Gameplay A game that defies me to tell you anything about it, not that I'm convinced you'd believe me if I did. Rock Paper Shotgun I'm just gonna cut to the chase: The Hex is this year's Frog Fractions, Undertale, or perhaps most aptly, given that it's from the same creator Pony Island. Kotaku The Hex is a poignant, witty, cleverly written adventure spanning six protagonists and six very different - but smartly cohesive - stories. Jim Sterling Game "The Hex" Gameplay: Gameplay Rock Paper Shotgun The Hex is this year's Frog Fractions, Undertale, or perhaps most aptly, given that it's from the same creator Pony Island. Kotaku The Hex is a poignant, witty, cleverly written adventure spanning six protagonists and six very different - but smartly cohesive - stories. Jim Sterling Game "The Hex" Gameplay: Gameplay Game "The Hex" Summary Some Notes This game took me a while to get through. It's very hard to put into words that don't make it sound like a loooooooooong game. Still, I give it 4 in the race. You'd probably get 8 if you gave it a fair shot, and I think that a 5.5 rating is justified. The 6 Characters, 6 Stories You play as 6 different characters in 6 different stories. You get to decide how much you want to know about each of them, and this informs the story. Each story is told in first person from the perspective of one of the six characters, a psychedelic, ghost-like woman, a grizzled old man, a young musician, an old nag, and a goofy kid. You'll find some of them are the most compelling characters in the game, but some are just as strange and uninteresting. Six Stories, One Planet The game is set on a planet where creatures known as (you guessed it) Hexen get together to hunt and kill these characters. You'll find out why later. (And I did, just now.) Game "The Hex" Reviews Metacritic 10/10 Official Website The game has a very amusing tone, which I think fits the theme very well. Metacritic 10/10 Official Website Its difficult

II Ski Sniper II is a freeware skiing simulation game developed by Reflexsoft GmbH. It was released by Sony Computer Entertainment on November 28, 2005. The game supports PlayStation 2 and PlayStation Portable. Skiing scenes are shot from one of fifty available courses in over 50 countries. Interactions including maneuvering a skier through obstacles, hitting marks and controlling the weather, are significant components in each of the twenty-four trails. The game supports up to four players, and the PlayStation 2 version supports both online and offline play. Ski Sniper II was initially released as a paid PlayStation 2 game. This paid version was supposed to be released for the PlayStation Portable, but it was changed to a free game on the account of the success of the PlayStation 2 version. In late-June, 2007, Ski Sniper II was confirmed as a free PlayStation 2 game, in addition to PlayStation Portable. A review was released on the ESRB website, stating the game didn't meet the expectations of the original version. The game is listed among the "Top 30 Paid Games Over 2 GB on PSP" before being made free. With over 3.25 million copies being sold, Ski Sniper II is Reflexsoft's second best-selling game on the PlayStation 2, while the PlayStation Portable version is in the list of the "Top 20 Free Games Over 2 GB on PSP", alongside Volleyball, After Burner Climax, Rush, Alpha Protocol and Bloodborne. A sequel was planned due to the success of Ski Sniper II. It was reported to be released in 2007, but then released in early-2011. Gameplay Ski Sniper II is a skiing simulation game designed to be easy and simple. Gameplay begins as the player takes control of a skier, manipulating their controls for traversing a terrain under different weather conditions. The player can perform maneuvers like 360-degree turns, with obstacles including barrels, bridges, jump slopes and the sides of the slopes. Movement is operated with the face of the DualShock 2 controller, while the D-Pad, L2 and R2 buttons, A, B and Y buttons are used to control the skier as well as a number of other game functions. The X and Z buttons can be used to change between the available courses and the difficulty level. Landmarks like cow tipping areas, halfpipes and 5-second holds are placed over the courses according to the difficulty selected by the player. The final obstacle of the level is the terrain park,
