An old legend has it that there's a warrior who drinks an entire bottle of wine after slaying an enemy, and gains the super powers of the wine itself. The casual drinker calls him/herself the "Wine Spirit" and considers any battle won as soon as the enemy falls. But to everyone who crosses him/her, the same fate awaits. With these special powers, they can defeat absolutely anything that stands in their way. We've taken a chance on "Wine Spirit of the People," and we hope you'll try it out for yourself. Cut a path through the dense forest and welcome a new "Wine Spirit" to the world of GGO today! Wine Spirit of the People By... Reviews for Virtual Youths Come on people! We use a weapon. It's all in the hand. For God's sake! At least don't shoot the dog! Ok, now i'm trying to become superman... I go nuts... ...and I'm a teacher 12 By star\_w @ Awesome game 9.4 By Lost\_Train @ It's just great to see that Rockstar keeps making awesome game after awesome game. I hope this game gets a sequel. I'd love to see Nintendo DS version of this game. It's just so cute and playing this game would be an awesome way to relax and have fun. This game is so cool! 8.8 By Lim\_Pang @ It's the best game I ever played on DS. This game provides tons of fun. I just love it so much! Old-school RPG that works 8.8 By 442680 @ Like how the WOW RPGs used to be before everything got seriously convoluted. The characters are varied and well-crafted, the dialogue is great and witty and the adventuring is fun. And being able to purchase growth-

## **What's new in Rogue Operatives Hide And Seek:**

**is a manga series written and illustrated by Leedle Bastione. Produced by AXL2, the manga revolves around Lucy King and her best friend Jonny and their adventures in a world where humans have lost out to the automatons known as Landers. The series can be seen in English by Driland on Viz Media's digital website. Land Wars takes place in a fictional world where humanity was invaded by robotic machines. The initial mass media airing of the Land Wars anime began on April 30, 2009. In Japan, six TV**

episodes were broadcast per week. In addition, Land Wars a manga version was serialized in Shogakukan's Weekly Shōnen Sunday and ASCII Media Works' Big Comic Spirits manga magazines. The last issue of Big Comic Spirits ran in May 2010, shortly after which the magazine and website were merged into Big Comic Superior. The series is essentially a prequel to the Land Wars anime and manga. It covers the timeline of when Lucy's best friend Jonny was turned to a Land in the same way as the Land Wars anime, and which serves as a source of exposition for Land Wars. Several characters are introduced as they prepare for the eventual Land wars. The series also introduces the main character characters of Land Warsthe Cyclops, the Omega and its twin brother, and the renowned commandos, the Rooks. Premise Several years before the first anime, humanity's greatest achievement in technology was the invention of the Zolver. Dubbed "the great miracle," the Zolver's electro-mechanical composites enable manmade transportation and communication devices. The inhabitants of this world, known as the "Landers," are known for physical perfection and body-modification, with their upper bodies encased in holographic armor and having all limbs that deviate from the standard humanoid appearance made of pure metal. The Landers have overthrown the human inhabitants, which has had catastrophic results. In a typical battle, a Land force would attack a human city by picking one side of the city to attack, then quickly dropping the bridge connecting the two sides, trapping and killing the population inside. The Landers have wiped out much of the world's human population. For years, humans have put up a valiant resistance, but the assault continues with no apparent end. While the Landers await this, the Rooks, under the leadership of Commander Martha Rush, take command of designing new offensive technology. To protect the Landers from humans'

**Robot City Stadium is developed for the HTC Vive and Oculus Rift. Since the game will be using the Steam Controller, you'll need a Steam Account to play and buy in-game items. Robot City Stadium combines the physics-based mastery of competitive disc-combat with the precision of room-scale VR. The arena is a sprawling urban loft that's painted in the most vibrant and colorful palette imaginable, backed by the electric bass thump of sci-fi comic book soundtracks. The game offers a multiplayer mode, a solo skirmish mode, and both hardcore and casual league play. User experience, communication, rules, and match length are all customizable. Robot City Stadium is being developed with the goal of serving as the definitive disc-combat game for VR. If you want to make it clear to all the other disc-combat games that are trying to copy you, you'll need to master RCS and make it your own- and then you'll be unstoppable!**

**About the Game: Robot City Stadium is an online competitive multiplayer disc-combat game focused on skill, nuance, and mastery. Robot City Stadium offers a deep competitive mode, a solo mode, and both hardcore and casual league play. User experience, communication, rules, and match length are all customizable. You can choose among different game modes, skill types, difficulty levels, division levels, maps, map features, and much more. But the core gameplay is based on skill-based multiplayer disc-combat, so if you suck, you suck :) :) :) A quick rule overview: - 120 frames per second (FPS) - smooth, high-resolution movement with zero input lag - Analog stick physics - throw a laser disc by rotating the analog stick left or right - No Aim-Assist - throw it where you want it to go, even at an angle - Super Easy - play RCS like it's a video game with hand-holding tutorial options - Normal - play RCS like a competitive sport with intuitive gameplay, mostly self-explanatory - Intermediate - learn to build a mastery of this game - Hardcore - dig deep and go toe-to-toe with the community - Casual - play RCS to relax and unwind We've developed two basic types of skill-based gameplay: - Aim-Assist - a laser disc is thrown and then the player aims and hits**
