\* 70 lovely-crafted levels, \* exclusively created for this game, \* has atmosphere of a completely different experience, \* avoid predictable patterns of games, \* good-quality soundtrack, \* detailed and constantly changing visualization, \* realistic game-time and attention-to-detail aesthetics, \* casual and addicting gameplay. It's so low-stress, you'll be thinking yourself as a genius. Your turns are almost-easy to acquire and perfectly-fit into the gameplay. So, if you have never tried to play one of these games called minimalistic, we hope you'll enjoy the experience. If you try to see how difficult it is to beat all these squares, just feel like a soccer star! To heighten the sense of accomplishment, try to play these games on a big screen! What's new: BEVY, THE SQUARE OF RATINGS There are two color levels inside. You can choose the color you're more comfortable with, but if you are that power-consuming left-brain decision maker, then you still will have an extra chance to win! When you make a second level just by improving the original.
