As usual, you will get equipment and pick one of four classes (Weapon, Armor, Clothing, and Craft) that will enable you to defend the workplace of your choice from the attacks of another AI. You start off with one of the starting characters from each class. Online:

Multiplayer is more of the same. You will have one of the same starting characters, and any difference in weaponry, armor, or craft is up to the luck of the draw. Best For: I suppose if you have been playing the game for a while you can pick up where you left off. Mod Features: None right now Version: 1.4.1 Requires: For offline play, this is the version you need to install. For online play, the game is self-contained, and you may just install the update.
