Disney Interactive Cars 2 The Video Game for.1. Field of
the Invention The present invention relates to an organic
light emitting display and, more particularly, to a method
of manufacturing an organic light emitting display with
light transmissivity. 2. Description of Related Art In recent
years, an organic light emitting display has attracted much
attention as a display for utilizing characteristics of a light
emitting layer to achieve self-light emission without a
backlight source, so as to serve as a full color display or a
large-area display in a flat surface manner. In

manufacturing of the organic light emitting display, a predetermined process for patterning a transparent electrode layer that is to be used as a pixel electrode in a display region must be performed, so that a light trans
