About Canoe The CANOE® mission is to provide customers with a complete, end-to-end solution for their autonomous vehicle (AV) needs, enabling them to focus on their mission and mission-critical activities. The CANOE™ tool suite is comprised of the CANOE® CAN controller, the CANoe® Real Time Environment and the CANoe® Synchronous Software with the CANoe® QuadSync technology. The CANoe® QuadSync technology provides an accurate time reference for CAN communication and synchronization of the QuadSync Layers. The CANoe® CAN controller is the industry-leading AV CAN interface that enables development and integration of AV systems. With a full software stack and hardware functionality, the CANoe® CAN controller provides the essential link between vehicle systems, and also integrates the vehicle management systems and the traffic information systems. The CANoe® Real Time Environment (RTE) provides an API-driven real-time framework for AV real-time systems (AVRS) and embedded vehicle control systems (EVCs). It supports CAN controller/s from various manufacturers and provides a comprehensive set of tools for development and integration of AV control systems. The CANoe® Synchronous Software with the CANoe® QuadSync technology (QSYS) is a CAN/VFD communication software product that provides automotive Ethernet communication and synchronization of the QuadSync Layers. The CANoe® Synchronous Software is designed to integrate into the QSYS with the CANoe® CAN controller and the QuadSync Layers, and provides powerful AV communication functions for deployment into OEM vehicles. Founded in 2006, CANoe Technology was established with the mission to produce a complete AV CAN interface enabling development and integration of AV systems. The extensive CANoe product portfolio is comprised of the CANoe® CAN controller, the CANoe® Real Time Environment (RTE) and the CANoe® Synchronous Software with the CANoe® QuadSync technology (QSYS). Today, we are proud to announce that we will be exhibiting our products at Automechanika 2017, the world's leading fair for the automotive industry. We look forward to the meeting of our partners and the prospects of the exhibition. Safety Systems Daimler Trucks Ag Truck Actuator & Control System The Daimler Trucks Ag Truck Actuator & Control System provides enhanced performance and longer life-cycles in agricultural tractors with innovative software
