Add tags for President Ronald Reagan speaking on energy, in 1969 Tags In this period, President Reagan has been involved in a number of campaigns against social reforms. President Reagan sought to end federal government assistance to poor families, because they were considered "breeding grounds for Communism." He launched the Willie Horton campaign against then Vice President George H.W. Bush, which attacked Bush's selection of a black man as his running mate for his campaign against Democratic presidential candidate Michael Dukakis. Reagan's campaign tactics included using misleading, sensational headlines, false attacks, and false information on his opponents. A lesser known fact about President Harry S. Truman's administration was his interest in Arctic geography. Truman sent his secretary of defense, James Forrestal, to study and report on the logistical difficulties in reaching the Arctic. The University Archives Blog is a forum in which staff and volunteers from The University Archives will share their latest writing, web-based research, and other information about the University Archives collections and programs. September is historically the month in which average temperatures begin to cool across the United States. As fall approaches, many families become reacquainted with lawns, trees, and home interiors. For the University Archives staff, September has become a period of research and preparation as staff members begin their new autumn projects.Q:

(TV series) Tunnel Blast is a feature film made by RK Productions International in 2011 and distributed by Bollywood Heroes. Tunnel Blast has won several awards and has been judged as the most progressive Hindi movie till date on "Banned Movies". Tunnel Blast is one of the popular youth flicks of 2011 in India. Plot summary A prologue of the film begins with a young man who is blind in one eye, left deaf in the left ear, dyslexic and who is partially brain damaged due to malnutrition in his earliest years. He does odd jobs in order to earn some money and food. This poor man named Daya Ram takes refuge at the residence of a wealthy woman, (Miss Madhu S.), because she is kind hearted, has given him his meals two years back and has helped him regain his health. Daya Ram develops a liking towards Miss Madhu S.'s presence of mind, creativity and her traits to understand him. (A scene can be seen in the middle of the movie where Daya Ram and Madhu S. dance together and he teaches her to wave her hand, and all the time he keeps on telling her to hold her hand higher.) The day comes when Daya Ram realizes she is the one he wants to die for and he wants to show her his love but he does not have the guts to do so due to fear and doubt of society. In the heavy days, he starts to work nearby her office where several corrupt and criminal elements are working with her. He shadows them, and one day, he sees them breaking into a jewel case. One of them lifts a gold chain which he wears and tells all the others it is valuable and "bust him" and they start to laugh. This is a sign for Daya Ram to realize they are the thieves he is shadowing. One day, he takes out all the jewellery that was stolen and takes back that he was wearing stolen property and tells the thieves that he will get back the jewellery in their homes and all of them get out instantly. This is followed by the evil characters dancing together and singing a song saying that Daya Ram is here to settle scores with them. They, in their uncontrolled enthusiasm, start dancing and "take to" Daya Ram himself. They dare to touch him and make him one of them. An excited Daya Ram starts running around and reaches Miss Madhu S.'s office at the nick

Get ready to spend dozens of hours cultivating, nurturing, evolving, creating and interacting with your very own ecology! Equilinox is a relaxing nature game in which you can create your very own diverse ecosystem of plants and animals. Sit back, start growing, and watch your world blossom and evolve in front of you! Each species has its own life-cycle, unique behaviors and requirements, so you need to ensure that each species is satisfied with its environment, has enough resources, and that the ecosystems are balanced. Healthy, happy animals will live longer, breed more, and earn you more points. The game is sandbox-based, meaning you can design and plant and grow as much as you want (as long as you have a lot of time). You can start creating your ecosystems by placing plants and animals into your world. Having a variety of plants and trees will make the terrain more fertile and allow wildlife to flourish, while animals will begin to earn you points which can be used to purchase various in-game resources. Every animal and plant has its own life-cycle, unique behaviors and requirements, so you need to ensure that each species is satisfied with its environment, has enough resources, and that the ecosystems are balanced. Healthy, happy animals will live longer, breed more, and earn you more points. Get creative! You can use the genetic modification function to modify your species to your heart's content. Turn your plants into zombies, power-up your pets into terrifying supervillains, and genetically modify almost any species for the ultimate in benefit. The possibilities are endless! Equilinox has multiple ways to earn points: Satisfy the requirements of your plants and animals Use the quest system and complete quests Avoid predators and insects Supportable through Facebook Find more about game here Twitter Website: Semimi is an action adventure hybrid platforming game set in an awesome fantasy world. Jump, dodge and climb your way through puzzles and explore the magnificent open world of Semimi.
