A: I would recommend getting a VPN tool, I am using a paid one called NordVPN and they are wonderful. The issue is that your laptop is connecting to the internet through your device. So if it is for example your phone and you want to watch a show on your laptop, what you want to do is stop it from coming in through your phone. My recommendation is to use a paid VPN for this. If this is your first visit, be sure to check out the FAQ by clicking the link above. You may have to register before you can post: click the register link above to proceed. To start viewing messages, select the forum that you want to visit from the selection below. Infested Websites (scam attempts) I'm not sure if this is the place to ask this question but maybe it can be useful. Several of my websites have been hit by attack from a particular IP address. All the websites are hosted in the same webspace and I don't see anything wrong with them. I have disabled the IP address and moved the websites to another web host, but I want to know what should I do further to solve this issue? I'm not sure if I have these kind of IP addresses in the first place but as I'm not running any sort of webserver I'm not sure if I can see it in my cpanel. I'd appreciate if someone could help me if I have or not. Re: Infested Websites (scam attempts) Originally Posted by lemaire I'm not sure if I have these kind of IP addresses in the first place but as I'm not running any sort of webserver I'm not sure if I can see it in my cpanel. I'd appreciate if someone could help me if I have or not. I can't answer your question directly, but there's a couple of obvious things you could look into. I would suggest checking: 1. The Security groups on your website to see if any new groups have been added. 2. The htacess files to see what changes are made.What happened in the last five years? Among the 19 EU countries that provided information to the EU Parliament on their aggregate compliance with EU legislation, the Czech Republic is one of the countries that have the best track record of compliance with regulations. The main goal of this project is to support the Czech 6d1f23a050
