Show HN: I just created an open source scheduling tool - rangeofmotion ===== rangeofmotion Hey everyone. I work on this as a side project and I would love to see if anyone else has ideas for features or just wants to chat about code.

We have a few of our daily tasks out-of-the-box and we are pretty happy with the functionality so far. The present invention relates to a recording apparatus, and more particularly to a recording apparatus for recording a video signal on a magnetic recording medium such as a magnetic tape. In a recording apparatus for recording a video signal on a magnetic tape, the recording tape is forwarded at a predetermined speed. The magnetic head, which is mounted on a rotary head drum, moves in a predetermined direction in accordance with the relative speed of the rotary head drum and the tape so that a video signal is recorded on the c6a93da74d
