Main article: Dragon Ball Super: Super Saiyan Kuririn sacrifices himself to save the Earth from Cell's rampage while Goku, Vegeta, and a recovered Gohan are on their way to where Cell is. Gohan is the first to finally return to normal. He travels to revive Goku as soon as he returns to normal form, and tries to persuade the rest of Goku's friends that they should be remaining in a safe location instead of fighting Cell. Goku decides to accept Gohan's advice and tells everyone else to return to the Lookout, as they should be safe there. At this point, Vegeta only watches on in his Super Saiyan form, as he must not use it until the Dragon Ball is within his reach. On the other hand, Goku continues on his mission. Due to the android having been weakened by the eclipse and all of his victims being accounted for (except Gohan, who was not in Earth) the Cell is not killed and Vegeta is transformed into Super Saiyan Blue without apparent harm and engages Cell. Vegeta and Cell continue their battle, with Goku still several kilometres away, but Cell takes the bait. Vegeta kills Cell, despite Goku still being too far away. Vegeta is allowed to continue fighting Cell as he is now at full power, yet he is no longer the same Vegeta as before. Vegeta then waits for Goku to fight Cell again, and wishes for Super Saiyan form. Soon after, Goku comes to fight Cell, who has no way of killing Goku if he is Super Saiyan. Goku promptly defeats Cell, as he did many times prior. Super Saiyan Goku returns to the Lookout with Vegeta and the others, where the planet has now been repaired and everyone's DNA has been altered to fit the timeline. Goku claims that they will just age normally from now on, and everyone agrees that this is preferable to being under Cell's watch.

The "Spectator Mode" is a feature where players can enjoy the show from the sidelines and watch the battles unfold using a simple GUI interface, without having to take an active role in the battle. It is based on the real-life spectator mode in Nintendo's Wii U games, which allows you to view the game with an open third-person perspective similar to an action game, but with three other players controlling the game's characters. In this mode, players can see the instructions for the other characters at the bottom of the screen, but aren't allowed to interact with them unless the player chooses to do so on their own. This mode is a great way for players to enjoy the show from the sidelines while they are away from their console, and it is also great for spectators at home that want to hang out with friends who are also fans of the games, seeing which character they prefer and how they can become better players by watching others. The influence of the film is clear. In the film, Goku was able to defeat the lead villain after a series of challenges, with help from other characters: his short time as an adult in the series' world is much longer than his time as a child in the film's. The TV show is also much more episodic than the film. It does, however, reuse the aspects of the film that didn't fit into the already long anime episodes. Goten begins to train with Gohan as part of his transformation into a Super Saivan. Goten and Trunks escape the evil Goku's clutches, and after the latter reveals his plans to use the Dragon Balls to become a godlike being, the two clear out the monsters surrounding the castle. When the monsters are defeated, they stumble into the castle and the Four-Star Dragon Ball takes an interest in them. The following adventure involves the pair of training up to super strength and fighting the five Flements, 5ec8ef588b
